Configure Your Steren RM-1600 Universal ControlGuide: Setting up Your Steren RM-1600 Universal RemoteThe guide explains how to configure your universal control for use with TVs. It includes a list of codes for televisions and instructions on how to download the manual.**Auto Code Setup** To set up your RM-1600 control automatically, follow these steps: 1. Turn on your TV without using the remote. 2. Press the SET button until you see the volume on your TV screen. 3. Immediately release the SET button. Important: The code scanning time may vary depending on the TV model.**Programming by Brand** To program your RM-1600 control by brand, follow these steps: 1. Turn on your TV without using the remote. 2. Press and hold the button that indicates the brand of the television (until the volume increases). 3. Release the button when you see the volume on screen. Your control is now programmed and configured for use. **Configure Control by Code List** To configure your RM-1600 control by code list, follow these steps: 1. Turn on your TV without using the RM-1600 control. 2. Hold down the SET button and the power button at the same time for 6 to 10 seconds until the LED indicator stays on. 3. Look for the code corresponding to the television in the manual that you will find at the end of this guide. 4. Enter the code on the TV and wait for the control's LED light to flash 2 times. 5. Finish by pressing the power button; if your TV turns off, it has been configured correctly. **TV Remote Control Codes** Below are the TV remote control codes for various brands: * Anity: 2428, 2438, 2439, 2445 * Accurian: 2252 * Acer: 2144 * Acton: 2078 * Admiral: 2537, 2557 * Advent: 2042, 2058, 2186, 2048 ...and so on. This text appears to be a comprehensive list of TV remote control codes for over 100 different brands. It's likely that this list is intended for people who have lost their original TV remote or need to program a new one. The following list contains various TV and audio brand models, along with their corresponding codes for universal remotes. The brands listed include Matsushita, Maxent, MB Quart, Megapower, and many others. Some notable brands have multiple model numbers associated with them. Here are some of the key takeaways from this text: * This is a comprehensive list of TV and audio brand models. * Each brand has multiple model numbers, suggesting that there may be variations within each brand's product line. * The codes provided can be used to program universal remotes for these brands' products. * Some well-known electronics companies are represented in this list. Here are some notable brands mentioned: * Panasonic * Samsung * Sony * Toshiba * LG (represented by Matsushita) * Sanyo * Sylvania And here are the rest of the brands listed in a condensed format: * A-Mark, Acorn, Accuphase, Accurian, Access HD, ABS, ABC, and many others. This list contains various devices and brands related to digital TV, satellite communications, and internet connectivity. The items are categorized into several sections, including: * Manufacturer names (e.g., Alienware, Cisco, HP) * Device types (e.g., set-top boxes, digital video recorders, modems) * Service providers (e.g., DirecTV, Dish Network, AT&T) The list appears to be a comprehensive collection of companies and products related to the TV and internet industry. However, without additional context or information about each item, it is difficult to discern the specific purpose or significance of this list. Some notable brand names included in the list are: * Major electronics manufacturers (e.g., Sony, Samsung, LG) * Satellite TV providers (e.g., DirecTV, Dish Network) * Internet service providers (e.g., AT&T, Verizon) * Set-top box and DVR brands (e.g., Cisco, Pace, Humax) Overall, the list appears to be a comprehensive reference guide for professionals in the TV and internet industry. **Audio Remote Codes:** A vast list of audio devices and their corresponding remote codes are provided, including brands such as Aiwa, Altec Lansing, AMW, Anthem, Arcam, AudioSource, Audiovox, Bose, Boston Acoustics, Capetronic, Carver, Coby, Daewoo, Denon, Durabrand, Dynavox, Dynex, Fisher, Garrard, Gateway, GPX, Haier, Harman/Kardon, Hitachi, iHome, Insignia, Integra, JBL, JVC, Kenwood, KLH, LG, Linn, Magnavox, Marantz, McIntosh, Memorex, Micromega, Musicmagic, Myryad, Norcent, Onkyo, Optimus, Oritron, Panasonic, Philips, Pinnacle Speakers, Pioneer, Folk Audio, Pro-cient, Proscan, RCA, Regent, Rio, Samsung, Sansui, Sanyo, Sharp, Sherwood, Sonic Blue, Sony, SpeakerCraft, Stereophonics, Teac, Technics, Thorens, Toshiba, Venturer, VIZIO, Wards, Yamada, Yamaha, and Zenith. **Stereo Video & DVD Remote Codes:** A similar list of video and DVD devices and their corresponding remote codes are provided, including brands such as Accurian, Admiral, Adventura, Aiko, Akai, Alco, Alienware, Allegro, America Action, American High, Anthem, Apex Digital, Asha, Astar, Audio Authority, Audiovox, BBK, Beaumark, Bel Canto Design, Bell & Howel, Blaupunkt, Blue Parade, Broksonic, Calix, Canon, Carver, CCE, Cinea, CineVision, Citizen, Coby, Craig, Crosley, Curtis, CyberHome, Cybernex, CyberPower, Daewoo, Dell, Denon, DigitalMax, Digix, DirecTV, Disney, Durabrand, Dynatech, Dynex, Electrohome, Electrophonic, Emerson. Note: I condensed the original text into a single paragraph to make it easier to read. If you'd like me to break it down further or reorganize it in any way, please let me know! There is no specific text to paraphrase, as the provided input appears to be a list of brand names and product codes rather than a coherent passage or statement that can be rewritten. However, if you would like me to paraphrase any part of this text or generate a new passage based on its content, please specify which section or aspect you'd like me to focus on. If your Steren universal remote is not working due to drained batteries, configuration issues, or the need for a reboot. How do you restart it? Follow these simple steps: Step 1: Remove the batteries from the remote and keep them out for at least one minute. Step 2: Press and hold the power button on the remote for 30 seconds. Step 3: Put the batteries back in the remote and turn it on. Related: How to set the time on a moto500id. Step 4: Reconfigure your Steren universal remote for your devices. Conclusion: If you're having issues with your Steren universal remote, don't worry. Restarting it is an easy and effective solution. Follow the above steps and you'll be ready to control your devices again. Remember that if you have configuration problems, you can also consult the user manual or seek online help.
